WHO WE ARE

ISSG – INDUSTRIAL SUPPLIES & SERVICES GROUP

We've been serving industry for over 25 years. We offer high-quality technical supplies; we've expanded our activities by also offering technical service in order to guarantee our customers comprehensive solutions.

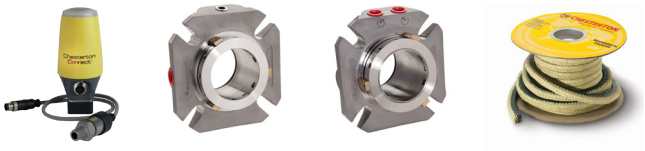
Our mission is to make your equipment more reliable and reduce your maintenance costs.

Our group is based on three pillars:

- **STS**, provision of technical solutions for your industrial rotating and static equipment.
- **MMCo**, repair and increased reliability of industrial pumps, design and manufacture of new parts.
- **Redytec**, dynamic analysis of industrial facilities, repair of foundations and anchoring under industrial equipment.

INDUSTRIAL SUPPLIES

STS
Safe Tensioning System



Mechanical Seals & Packing for Pumps and Valves

Hydraulic Seals & Technical Products

Pumps & Labyrinth Seals

Superbolt & Composite Repair

STS,

WE DO

For over 25 years we have been offering technical solutions of very high quality, primarily for pumps, valves, and rotating machinery for industry, to reduce your operating costs and increase the reliability of your equipment. Our staff's skills are at your service.

We're near you.

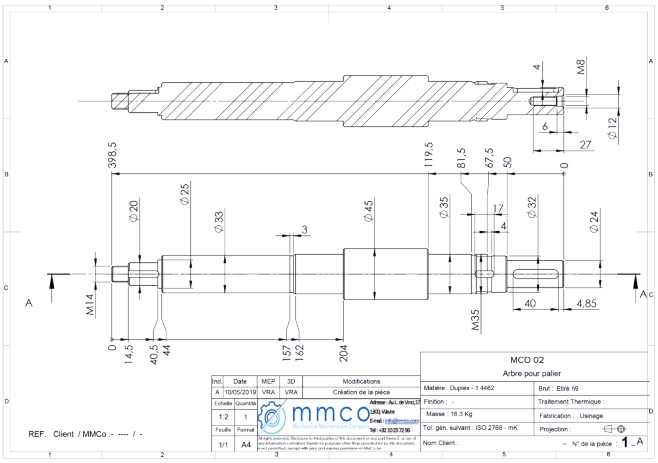
PUMP REPAIR & IMPROVEMENT

mmco
Mechanical Maintenance Company



MMCo,

WE DO

We repair, and in particular we improve, your industrial pumps from A to Z.

We have a team of highly skilled technicians; we have machinery (lathes, milling machines, slotting machines. etc.), and we also have equipment (sandblasting booth, painting booth, test bench, measurement bench, bridge crane, etc.) allowing us to safely do high-quality work in a modern workshop of over 1200 m^2.

We have our own engineering staff capable of designing and producing new parts.

We're near you, and can also work on your site.

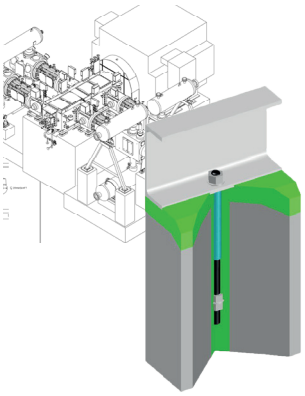
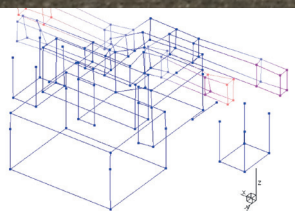
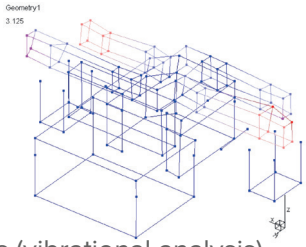
INDUSTRIAL GROUTING & FOUNDATION REPAIR

redytec
Reliable Dynamic Technology







REDYTEC,

WE DO

We analyse your problems with grouting and foundations (vibrational analysis).
We model your equipment in 3D.
We repair the foundations and anchoring of your rotating machinery such as pumps, compressors, hypercompressors, gearboxes, and rotary furnaces.
These repairs are made with the machine in place.
We have our own engineering staff capable of providing you with a comprehensive technical solution.
